FOREWORD

An important aspect of Health Planning and Management is the collection, analysis and use of reliable health information . Indeed, an effective health information system contributes significantly to effective monitoring and evaluation of the progress of health system development in Cambodia .

This 15th National Health Statistics Report provides a wide range of information to all information users. Health care providers, managers and others at all levels are increasingly using health information obtained through the National Health Information system not merely for management of health service delivery and planning, but also for monitoring and evaluation of their activities and programs.

The Ministry of Health would like to take this opportunity to thank Provincial and Municipal Health Departments , Central Departments and Institutions, and Health Development Partners, as well as various organizations for their collaboration in making this edition possible. Especially thanks to the director of Planning and Health Information, Deputy Director in charge of Health Information and HIS colleagues in Bureau of Health information for its effort to the development of this report
